

Fish Hatchery Manager Interview Questions

1. Tell me about an experience in which you analyzed information and evaluated results to choose the best solution to a problem.

2. What have you found to be the best way to observe fish and beds or ponds to detect diseases, monitor fish growth, determine quality of fish, or determine completeness of harvesting? Share an example.

3. Name a time when you supervised the artificial spawning of various salmon and trout species.

4. Walk me through how you confer with managers to determine times and places of seed planting, and cultivating, feeding, or harvesting of fish or shellfish.

5. Provide an example of a time when you successfully organized a diverse group of people to accomplish a task.

6. Share an experience you had in dealing with a difficult person and how you handled the situation.

7. Tell me about a recent experience you've had working with your hands.

8. Tell me how you organize, plan, and prioritize your work.

9. What are some long-range objectives that you developed in your last job? What did you do to achieve them?

10. Share an experience when you applied new technology or information in your job. How did it help your company?
